MADISON AVENUE

MORRISTOWN, N. J.

U. S. A.

Preface

Read this for a better understanding of our aims, the goals we've set here at WILSON'S ORCHIDS.

We have been growing orchids for the past 18 years. Our collection is comprised of the finest imported and domestic hybrids obtainable. We have been awarded many gold and silver medals and cultural certificates.

The crosses we have made and offer in this catalogue are the result of careful consideration and forethought. We have used only the finest seed and pollen parents to insure strong growth and productivity of the plants; color, texture, and size of the blooms; and your confidence and satisfaction in our efforts.

In the past we purchased, from the foremost hybridists, flasks of selected crosses in order to increase our own stock. We are willing to sell a limited number of these fine seedlings. If you desire, the originator's name will appear on pot labels of your purchases.

We believe in slightly over potting our seedlings. We therefore clearly stipulate at each offering that prices are based on the cross and the size of the seedlings.

Packing is free of charge for all plants on this list and prices are F.O.B. Morristown, New Jersey in U. S. dollars. Shipments are forwarded via Railway express unless otherwise specified in your order.

This catalogue covers the shipping dates of this firm i.e. April 15th to November 15th, 1949. Although we take every precaution when packing orders, we can not guarantee safe delivery in colder weather. Such orders travel at your own risk.

Please, DO NOT include payment with your order. Payment should be made upon receipt of Invoice.

NON-WARRANTY: We, WILSON'S ORCHIDS, "Orchid Oaks," give no warranty, expressed or implied, as to the productiveness of the plants we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of these plants.

Feel free to communicate with us at anytime concerning your orchid growing problems. Our laboratory and numerous experimental projects are conducted here to find better methods in growing and to solve problems in Orchid Culture.

Whether it's an order or a problem, may we have the pleasure of hearing from you? Visitors are always welcome.

Wm. M. Wilson
Wm. O. Wilson

HYBRID SEEDLINGS IN FLASKS AND TUBES

For the Professional or Amateur who is interested in growing plants on, from the Flask. We offer the following crosses made with the very finest parent plants obtainable.

IMPORTANT NOTE:—It is impossible for us to guarantee that Flasks will arrive in perfect condition as far as the agar is concerned. If the agar is badly broken up and mixed with the plants they should be transplanted immediately.

Cross No.	Cross	Size of Flask	Price
50007	C. Mossiae x C. Trimos C. Mossiae of fine merit, beautifully shaped flower. C. Trimos, Tyco. Var. Large, fine shape, exceptional substance and color.	500cc	\$15.00
50006	C. Mossiae x Lc. Chas. Futterman Exceptionally fine dark Mossiae with fine shape and substance. Lc. Chas. Futterman, dark with very dark full lip. NOTE —The above are ready to ship now, weather permitting.	500cc	15.00
70160	Lc. Arras Alba x C. Bembridge Alba Arras Alba, a very fine free flowering white with colored lip; Bembridge Alba, a beautiful white sepal and petal hybrid. The infusion of Aphrodite and Enid in the parents, make this a strong grower and free producer of excellent blooms.	500cc	20.00
70145	C. Belgica x C. Fred Sander Belgica, a worthy parent, producing large beautifully shaped flowers of light lavender. Lip, round and full, gold in throat. Fred Sander, being a remy chollet cross can not help but produce luxurious blooms.	500cc	15.00

NOTE—A limited number of the above two crosses will be ready to ship by July, 1949.

HYBRID SEEDLINGS IN FLASKS

The following seedlings are in 250cc flasks. These hold many more seedlings than tubes, and are not as apt to dry out. The agar is uniform in thickness, which gives every seedling the opportunity to grow uniformly.

Cross No.	Cross	Size of Flask	Price
50008	(Lc. Cameronian x C. Mount Royal) x C. Cherokee Cameronian x Mt. Royal, a very large, beautifully shaped flower with broad sepals and petals of medium lavender. Very dark lip, light area in throat marked with dark veins. C. Cherokee broad sepals and petals of light lavender, lip, full, dark, with two gold eyes in throat. Fine producer.	250cc	\$10.00
C0230	C. Sir Pertinex x C. Santa Monica Fine dark flowers of perfect conformation, frilled lip margined with orchid, small reddish area backed by rich golden yellow. Santa Monica, lovely soft pink, broad sepals and petals, lip very dark reddish purple veined rich gold and maroon.	250cc	10.00

C0199	C. Mahopac x C. Trianae, Fine Variety A very fine shaped flower with dark sepals and petals, lip very dark red with gold band. C. Trianae, a very fine type, sepals and petals medium orchid color, lip beautifully frilled and of good size, dark magenta, gold throat veined magenta.	250cc	10.00
50006	C. Mossiae x Lc. Charles Futterman We remake this fine cross, using the same fine dark Mossiae with excellent shape and substance. Lc. Chas. Futterman, dark with very dark full lip.	250cc	10.00

IMPORTANT NOTE—The above offering of four crosses in 250cc flasks will not be ready to ship until August or September. This is necessary in order for us to get our list out on time and to cover the entire year of 1949.

COMMUNITY POTS

Strong clean well rooted seedlings that are past the CRITICAL stage, growing them on from this point is less difficult.

Cross No.	Cross	Plants Per Pot	Pot Size	Price Per Pot
80346	Lc. Cameronian Alba x C. Priscilla Alba	12-15	3"	\$8.00
60194	C. Lediata, C. Leda x C. Labiata	15-18 12-15	3" 2½	10.00 8.00

Prices are based on the cross and the size of the seedlings, not on the size of the pot.

SPECIAL COMMUNITY POTS

In this we strive to give you what we think many would prefer in order to have a variety of crosses in their collections, instead of 15 or 20 plants of one cross.

Cross No.	Cross	Plants Per Pot	Pot Size	Price Per Pot
50007	C. Trident, C. Mossiae x C. Trimos Made with the finest parents.	3	2½	\$2.50
80358	C. Gloriette x C. Enid, Var. Mrs. Butterworth	3	2½	2.50
60194	C. Lediata, C. Leda x C. Labiata Made with selected parents.	3	3"	3.00
60175	C. Enid x C. Leda x C. Mossiae Two good Hybrids crossed on Mossiae.	3	2½	2.50
60174	Genl. Russky Alba x Blc. Eudora Alba A very nice white with colored lip.	3	2½	2.50

80357	C. Priscilla Alba x C. Hardyana Alba White with beautiful colored lip.	3	2½	3.00
80344	C. Nutley Alba x C. Mab Alba Very fine white with colored lip.	3	2½	3.00
80233	Lc. Feltyus x Lc. Felsenia Highly colored Lc. Hybrid.	3	2½	2.50
80359	C. Enid x Lc. Massasoit A very fine Hybrid.	3	2½	2.50
50006	C. Mossiae x Lc. Chas. Futterman Exceptionally fine dark Mossiae. Crossed Lc. C. Futterman, dark with very dark lip.	3	2½	2.50
90524	Lc. Altesse x C. Souvenir de Louis Sander Should produce fine Hybrids with beautiful, very deep purple lip.	3	2½	2.50

CYMBIDIUMS

215	Cymb. Dipper x Schlegelii	3	2½	1.50
203	Cymb. Blue Smoke x Curlew	3	2½	2.00
212	Cymb. Oliva x Plover, Var. Orient	3	2½	2.00

These fine Hybrid Cymbidiums will be ready for shipping in June, other crosses will be added to this list as they progress.

HYBRID SEEDLINGS IN INDIVIDUAL POTS

Prices are based on the cross and the size of the seedling. Not the size of the pot.

Cross No.	Cross	Pot Size	Price Per Pot
80345	C. Enid x C. Dinah, A.M. R.H.S. Both parents are exceptionally fine types and should produce exhibition blooms.	2" 2½	1.00 1.50
80344	C. Nutley Alba x C. Mab Alba Very fine white with colored lip, should be heavy producer.	2" 2½	2.50 3.00
80235	Lc. Feltyus x Lc. Felsenia A fine winter flowering Hybrid should result from this cross; flowers of fine quality and brilliant coloring.	2½	1.50
80233	C. Lueddemanniana x C. Priscilla C. Lueddemanniana used was large, well shaped Easter flower, Priscilla of fine symmetry and beautiful lip.	2"	1.25

80234	Lc. Karen x Lc. Tarton Strong grower and heavy producer of dark flowers with darker lip excellent substance.	2" 2½	1.25 1.50
80237	C. C. P. Walker x C. Waltersiana Two fine Hybrids; strong growers and producers of well shaped, heavy substance flowers, dark lip, medium lavender S&P.	2" 2¼	1.00 1.25
60174	C. General Russky Alba x Blc. Eudora Alba General Russky, large white with nicely colored lip; eudora, an outstanding flower for shape, color and quality.	2½	3.00
80346	Lc. St. Gothard x C. Gloriette St. Gothard a proven parent of highest quality blooms, crossed with gloriette, a superbly shaped and colored flower with very dark lip beautifully marked.	2½	1.50
80359	C. Enid x Lc. Massasoit A majestic Enid was used with a very fine Lc. Massasoit.	2½	1.50
80357	C. Priscilla Alba x C. Hardyana Alba Two fine shaped white sepal and petal Hybrids with exquisitely marked lips were used. Outstanding for beauty and quality.	2½	3.00
20000	Lc. Chas. Futterman x C. Trimos This crossing of two fine producing Hybrids should flower thru the Xmas season. Flowers of fine shape and substance.	2½	1.50
80348	C. Sam Endicott x Lc. Norvic Alba A white of exceptional merits crossed on white with a fuchsia lip.	2" 2½	2.50 3.00
10572	Lc. Helen Wilmer, A.M. x Lc. Altesse Helen Wilmer, a beautifully shaped and colored flower. Altesse a proven Hybrid of merit.	2½	1.50
10557	Lc. Diana x Excelsior x C. Mossiae This cross made to produce Easter flowering plants. A very dark Mossiae crossed with a beautifully dark Hybrid with very dark lip.	2½	1.50

HYBRID ORCHID SEEDLINGS IN 3 INCH POTS

These are very fine, strong, clean plants of the very best parentage.

Cross No.	Cross	Price Per Pot
20886	C. Edithae x C. Gravesiana x C. Intertextia Should produce exceptionally fine white.	\$5.00
21030	C. Edithae Alba x C. Gravesiana x C. Trianae A fine white of proven parentage.	5.00
20897	C. Dowiana x C. Mossiae (C. Emps. Frederick) Emps. Frederick made with select parents.	3.00

21033	C. Mossiae Reineckiana x C. Enid Alba (C. Ardmore Alba) A free producing very fine white with highly colored lip.	4.00
21031	C. Mossiae x C. Trianae (C. Trimos) An old cross remade with exceptionally fine parents, very excellent producer.	3.00
20910	Bc. Imperialis (Bc. Cliftonii x C. Mossiae) Exceptionally fine parents make this a majestic bloom.	3.00
20894	C. Lady Alexander Alba x C. Royal Harold Alba Both parents have paper white S&P and very brilliant lip. Strong grower and producer.	4.00
20000	Lc. Chas. Futterman x C. Trimos A very fine Lc. C. Futterman was used with a C. Trimos of merit. Good producer.	3.00
80234	Lc. Karen x Lc. Tarton Strong grower, excellent substance, heavy producer, dark, with darker lip.	3.00
80235	Lc. Feltyus x Lc. Felsenia A fine winter flowering Hybrid should result from this cross; fine quality, bright color.	3.00
20883	Lc. Cynthia, F.C.C. x C. Mt. Royal A winter blooming Hybrid of exceptional qualities, both parents produce an abundance of large heavy substance flowers of fine shape and dark color.	3.00
20884	Lc. Hillery F.C.C. x C. Mt. Royal An outstanding Hybrid of finest quality and color, should be the result of this cross. Parents are both strong growing, good producing plants.	3.00

EXOTICS

As United States representatives of a reliable collector in Central America, we offer the following list of strong clean plants, recently collected from the jungles. Many are of commercial value, all are worthy collectors items. Plants will be shipped as collected, unless we are requested to establish them in pots or on bark.

Special price to commercial houses on 500 or more leaf bulbs of Cattleya Dowiana and Cattleya Skinnerii.
